Childcare Development Professional

Course Description
This course is designed for individuals who wish to work in the early childhood field. With 120 clock hours, this course will meet the education requirement as specified by the CDA process.

Course Overview:
Learn the fundamentals of childcare and the important elements of nurturing and caring for children who have not yet entered formal schooling. Discover techniques on how to properly supervise older children before and after school. Learners will explore the important role in children’s development including attending to children’s basic needs, organizing activities and implementing curricula that stimulate children’s physical, emotional, intellectual, and social growth. Learners will be exposed to proven techniques that help children explore individual interests, develop their talents and independence, build self-esteem, and learn how to get along with others.

Competency Goals:
- To establish and maintain a safe, healthy, learning environment
- To advance physical and intellectual competence
- To support social and emotional development and to provide positive guidance
- To establish positive and productive relationships with families
- To ensure a well-run, purposeful program responsive to participant needs
- To maintain a commitment to professionalism

Sample Job Titles
