

## Estimated Annual Costs for International Students

### Per Academic Year

The following is a statement of estimated expenses for non-resident students who enroll at Cybersecurity Institute at Lab Four for a period of one academic year.

Students requesting F-1 or M-1 immigration status are required to show personal funds or sponsorship adequate to permit full-time study without working off-campus. The estimate includes living costs based on a twelve-month year. Sponsors must show ability to pay for all expenses listed, even if the student may not need some of these estimated expenses paid for at this time.

The following is the approximate cost determined by Cybersecurity Institute at Lab Four to be typical student expenses for 12 months, including tuition and course materials fees as well as living expenses.

Estimated Educational Expenses		Estimated Total Educational Cost: <i>(no scholarship applied)</i>	
Tuition:	\$19,300.00		<b>\$22,150.00</b>
Course Materials Fees:	\$2,850.00		
Scholarship (if applicable):	-\$5,000.00		
		Estimated Total Educational Cost: <i>(with Developing Nation Scholarship applied)</i>	
			<b>\$17,150.00</b>

  

Estimated Living Expenses		Estimated Total Living Cost for Students <u>NOT</u> Staying with Family while in the United States: <i>(includes lodging and utility costs)</i>	
Room and Board			<b>\$14,800.00</b>
Lodging:	\$5,400.00		
Utilities:	\$1,200.00		
Food:	\$4,400.00		<b>\$8,200.00</b>
Transportation			
Transportation:	\$1,200.00		
Medical Insurance			<b>\$8,200.00</b>
Medical Insurance:	\$800.00		
Personal Expenses			<b>\$8,200.00</b>
Personal Expenses:	\$1,800.00		

<sup>1</sup>The *maximum* Tuition and Course Materials Fees for M-1 students (for a 7.5-month vocational program) is **\$22,150**. The TOTAL Tuition and Course Materials Fees for F-1 students (for a 2-year academic program) is **\$43,825** across seven 10.5-week academic quarters, typically with at least 1.5 weeks off between quarters. The estimated annual Tuition and Course Materials Fees listed above is enough to cover 50% of the 2-year program (\$21,912.50). The *maximum* 10.5-week academic quarters that could start within one calendar year is five, and in that case the maximum cost incurred within one calendar year would be \$33,025.

<sup>2</sup>Cybersecurity Institute at Lab Four offers a **\$5,000.00 scholarship** to M-1 or F-1 visa students coming to us from developing nations. See the International Learners page at [www.labfour.com](http://www.labfour.com) for more information.

<sup>3</sup>Definitions and further details about the estimated living expenses for International Students begin on the next page. **NOTE:** *Students accompanied by dependent family members must provide an additional \$5,000 USD per dependent.*

## Estimated Annual Costs for International Students

### ROOM AND BOARD

Lodging, utilities, and food. Cybersecurity Institute at Lab Four partners with local organizations that will help facilitate housing and transportation for International Students, if needed. The institution does not have dormitories or a meal plan of its own. Estimate is based on shared housing.

### TRANSPORTATION

Based on an average of taking public transportation and using a purchased automobile. Estimate does not include the cost of an automobile. Note that local public transportation is limited to buses. Cybersecurity Institute at Lab Four partners with local organizations that will help facilitate housing and transportation for International Students, if needed.

### MEDICAL INSURANCE

Students must find appropriate medical insurance for themselves. The institution does not have its own mandatory or optional group insurance plan for students. General information regarding medical insurance is provided on the International Learners page at [www.labfour.com](http://www.labfour.com).

### PERSONAL EXPENSES

Spending money and essentials other than room and board, approximately \$35/week.
